Viega Metals Systems

Secure press connections
in seconds

viega.us

Viega ProPress® and MegaPress® systems are suitable for virtually any type of project, whether industrial, marine, commercial or residential for both new and retrofit installations. Viegas ProPress fittings are available in copper and stainless steel. Viegas MegaPress is the first press system for carbon steel pipe that can be installed in both hydronic and gas applications. MegaPress is also available in stainless steel.

- More than 1,300 press fitting choices in multiple materials, including copper, stainless and carbon steel
- Make secure connections in less than seven seconds
- Save up to 60% on installation time
- System-matched tools and jaws available to make consistent connections
- More approved applications than any other press fitting system
- Features Smart Connect® technology for easy identification of unpressed fittings during pressure testing

viega

Connected in quality.

Know what's happening with your sump pit, whether home or away

with the Ion+[®] Connect Sump Pump Alarm System

Patents pending, Patent No. 8,591,198, 9,033,686 and 9,680,401

Monitor and control your sump pump through a dedicated app and/or webpage.

Features include:

- 4G Cellular
- Status updated & setting adjustments via dedicated app, website, or any smart device
- Status features include:
 - Temperature control for HVAC issues
 - Power loss and restored alerts
 - Alerts when the pump has failed
- Multi user privilege settings perfect for property managers & plumbers
- True duplex operation, run both pumps at the same time
- Integration with the Amazon Alexa Smart Control Speaker

The Most Comprehensive
**Water Efficiency and Sanitation
Standard for the Built Environment**

This American National Standard provides minimum requirements that optimize built environment water use practices and corresponding provisions that maintain protection to public health, safety, and welfare.

WE•Stand applies to residential/commercial indoor and outdoor water efficiency, and features:

- A Water Demand Calculator that determines pipe size based on today's plumbing fixtures and appliances and usage patterns.
- Progressive provisions for uses of gray water, rainwater, reclaimed water, and onsite-treated nonpotable water.
- Water heating designs that precisely determine the maximum volume of water and length of pipe for efficient hot water delivery. Flow-through design, recirculation, and insulation to improve performance for water heating efficiency.
- Landscape irrigation that provides for efficient system performance within targeted zones without water waste.
- Fixtures, fittings and appliances that meet safe and efficient water consumption and flow rate requirements.
- Composting toilet and urine diversion system that safely removes toilet waste without the use of water.
- Dedicated metering requirements for water management and detecting leaks, equipment failure, water waste, and irregular water waste.
- Commercial food service that lowers water consumption for ice makers, food steamers, combination ovens, and dipper wells.
- Drain water heat exchangers that transfer heat from water waste to the water supply.

WHAT IS ASPE?

The American Society of Plumbing Engineers (ASPE) is the only organization dedicated to promoting the plumbing engineering profession to both enhance career opportunities for our members and ensure the health, safety and well-being of the public through the design of safe plumbing, drinking water, and sanitation systems.

WHY JOIN ASPE?

Joining the ASPE Chicago Chapter will provide you with access to:

- An expansive professional network of over 260 local & 6,430 national members
- Chicago Chapter Affiliate Contact info in MS Outlook format
- Illinois code official contact list
- Connect with peers (ASPE Young Professional, Women of ASPE)
- Connect with experts from around the world via online forums
- Networking events with local engineers and manufacturer representatives
- Vast amounts of educational materials (Plumbing Design handbooks and items online)
- Subscription to Plumbing Engineer magazine
- Local continuing professional education programs, (i.e. free CPD review class)
- ASPE Mentoring Program

HOW TO JOIN ASPE?

Sign up online at: www.aspe.org/membership-global-community/join
Find an ASPE Chicago Chapter Member at the upcoming ILPHCC Expo

WHAT DOES ASPE DO?

- Provide continuing professional education
- Publish design manuals, tools and standards
- Certify professionals skilled in plumbing design systems
- Promote safe and sustainable water and sanitation systems
- Help develop safe plumbing and building codes and standards

WHO JOINS ASPE?

Manufacturers, code officials, contractors, plumbing engineers, engineering students, plumbing design technicians, manufacturer representatives, cost estimators, plumbing system designers, inspectors, and specifiers.

Get Support, Quality Training, and Certification

Our training and certification program focuses on developing knowledge of the Illinois State Plumbing Code.

Who? You!

All inspectors, plumbers, apprentices, and plumbing contractors are welcome to join our association and attend our monthly meetings.

When?

The last Wednesday of every month at 6:00 pm.
Earn 1 CEU (continuing education credit) per meeting!

Where?

Gatto's Restaurant 8005 W. 183rd St, Tinley Park IL

For More Information

Please contact David Dertz at daviddertz@aol.com, or any of our officers.

Congratulations to the IL PHCC AUXILIARY and the IL PHCC Expo on 40 Great Years of Serving our Contractors and the Plumbing Industry!

**Providing the Most Responsive Advocacy and Support
to Chicagoland's Union Plumbing Contractors.**

The PCA of Greater Chicago (Plumbing Contractors Association), founded in 1882 as the trade association and signatory partner to Plumbers' Local 130 UA, today encompasses 17 counties in Northern Illinois.

The PCA through the Plumbing Council (Industry Fund) provides all of our affiliated contractors with education, advocacy, legislative & political action, public information, referrals, marketing initiatives and more aimed at promoting, protecting and advancing our contractors in the plumbing trade.

To find and hire one of our reputable union plumbing contractors for 24-hour emergency service or residential, commercial, municipal and industrial jobs, call 1-800-76-VALVE or visit www.plumbingcouncil.org.

Matt Erickson, PCA President | C.J. Erickson Plumbing Co.

Mike Kerrigan, Plumbing Council Chair | F.J. Kerrigan Plumbing Co.

S.J. Peters, PCA & Plumbing Council Executive Director

****All classes will be from 5pm – 9pm with Dinner included****

BACKFLOW REPAIR COURSE \$85

This course is focused on refreshing the Cross Connection Tester on testing procedures as well as hands on repairs for approved assemblies for the state of Illinois. During this class we will be going over our NEW mechanical wall, show you how water pressure fluctuations affect backflow assemblies, how to remedy the situation and be able to see it in a live setting. Also new this year is the Flood Control Integrated System by Wilkins; this system can be designed to shut off a specific water line when a backflow goes into a full dump situation.
